Services

We offer a wide variety of health services that can be provided in the comfort of your home or in an alternative care setting. We will be there to meet your individual needs and help you maintain as much of your lifestyle as possible, 24 hours a day, 7 days a week.

Quality, personal, caring service is our cornerstone. Our home health care professionals know that healing comes only with the proper balance of expert medical support and compassion.

We work with numerous insurance companies, long term care insurances, workers' compensation, private funds, and more. Our services can be

provided by the hour or by the visit. Major credit cards are accepted.

We are accredited by JCAHO, the Joint Commission of Accreditation of Healthcare Organizations.

Our Professionals

Our Registered Nurses and Licensed Practical Nurses work one-on-one with your physician and handle everything about the management of your home care from admission to discharge. Their hands-on approach to patient care and advocacy will ease the stress on you and your family so that all energies can be spent on healing.

We carefully screen our nurses for valid nursing licenses, appropriate skill levels, prior related experience and background. They are all required to have had at least one year (under their license) of experience in a hospital or clinical setting. Nursing skills are reviewed annually to ensure the highest competency levels.

Our nurses are self-motivated and enjoy working in a nurturing home environment. They have a true love of nursing and bring that love, along with superior nursing talents, to the patients in their care.

Our Paraprofessionals

Our home health aides and certified nursing assistants are bonded. They work under the supervision of a Registered Nurse, helping patients on the road to recovery or simply to help them maintain their current lifestyle. They assist patients with activities of daily living including personal care, household tasks and meal preparation.

Our companions and sitters offer a smooth transition from patient to total recovery. Light house cleaning, laundry, shopping and meal preparation are also provided.

Rehabilitative Services

Physical therapy, speech therapy and occupational therapy are also provided through our family of companies. Services include: therapeutic exercise, transfer training, gait training, ultrasound, TENS unit, prosthetic training, home safety evaluations, upper body strengthening, and ADL training.
